

executive office desk | IRIS

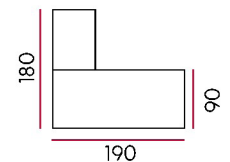

description:

The Iris Executive Office Desk shares the same design details as Iris Wood but in a more minimal and straight composition. The supporting legs are constructed to an aluminum arch silhouette, painted in silver electrostatic paint. The working surface is a solid one piece available in coloured 8mm glass or 18mm melamine wood. In both versions two other layers in silver support the working area finish: an 18mm MDF panel in a curved profile and a structural steel frame. An extension in the same continuous level is offered with a set of drawers with a lock at its end.

The model is recommended from an extended suite, which includes bookcases, conference tables and coffee tables under the collections of Iris and Atlas.
